---

Hi Gary –

Per our conversation this morning, I am sending you the Gulfco Draft Preliminary Site Characterization Report (PSCR) via e-mail in addition to transmitting the hard copy (with the laboratory reports on DVD) via overnight delivery. Due to the size of the document, I am sending it in three separate e-mails. This first e-mail transmits the Draft PSCR transmittal letter, text and tables. Two subsequent messages will provide the document figures.

As we previously discussed, I will contact you next week to schedule a possible meeting date to discuss the data presented in the report in more detail and talk through the evaluation of those data in the Baseline Ecological Risk Assessment (BERA) Report. Thank you for the opportunity to submit this draft report for your review and comment.

Regards.

Eric Pastor
